THE SOURCE EVALUATIONS IN THIS REPORT ARE DEFINITIVE.
THE APPRAISAL OF CONTENT IS TENTATIVE.
(FOR KEY SEE REVERSE)

1. [redacted] a submarine was observed close to the western end of Dago Island (Hiiumaa, approximately N 58-50, E 22-40).
2. The submarine was of medium size, no deck armament was visible, and there were no periscope standards. It had a rather tall conning tower of clean outline. The hull and conning tower were painted silver or aluminum, and no name or number could be seen.
3. Course steered was south, and the speed was about 17 or 18 knots.
4. The speed was estimated by the rate at which the submarine passed a merchant ship steaming on a parallel course.
